

FEATHER RIVER RAIL SOCIETY – AGENDA REPORT

DATE: August 8, 2012
FROM: Rod McClure, President
ITEM: New Business Item 3
SUBJECT: **Movement of Equipment**

Scott Franklin has inspected the equipment and the route and is working on his planning and quote. Looks like the equipment will pass the route with little problem, although we may need to remove the stack on the caboose.

We have been trying to catch each other on the phone to discuss costs and timing. Hopefully more info at the meeting so we can approve budget.
