

FEATHER RIVER RAIL SOCIETY

DATE: April 2020
ITEM: Director Report
FROM: Eugene Vicknair

GRANTS and FUNDRAISING

I have been researching new grant possibilities, especially in light of the COVID-19 impacts. As part of this, I have been keeping in contact with Shane Starr at Congressman LaMalfa's office about possible government funding and also discussing country plans with Patty Clawson, who has been conferring with Gabriel Hydrick, Plumas County Admin.

WP PFE 55069

There has been no work on the PFE 55069 due to the shelter in place orders. I did move the one remaining ice hatch outer cover to the workshop at my company with a goal of reproducing 4 replacements. I am also awaiting plans for the roof walks to start recreating these wood elements.

HEADLIGHT

To help with Headlight production, I am working on converting several of my old convention shows into articles, including shows on the Deep Creek and Indian Valley.
