Mailtrain

We continue to have society members and the public signup on our "*WPRM News*" email distribution list on Mailtrain. We now have 421 active email addresses on the list. Last month we had 396, so we had a net increase of 25 subscribers this month.

Web Server Event 2/6/23

At 18:15 PST on Monday February 6, 2023, the file server used by our website faulted for an unknown reason. To protect the integrity of the file system, it automatically went into read-only mode. The website remained up for viewing, but interactive tools (e.g. crew training signup) and the webcam updates became unavailable. I became aware of the issue about 05:00 on Tuesday February 6. Usually I get a daily email from the system at midnight showing various system parameters. I did not receive the email on Tuesday morning when I did my daily check. At first, I suspected a mail issue, but quickly discovered that the file system was operating in read-only degraded mode.

Kenneth Finnegan was able to determine the issue affected several virtual machines in his cluster. He ran a UNIX file system check (that would detect and repair any real file system problems), rebooted the web server and it came fully back online at 07:29 PST.

General Items

1/12/23 – Posted January FRRS Board Meeting preliminary agenda

1/13/23 – Posted link to 2023 WP Calendar sales page.

1/16/23 – Removed early bird registration notices from website.
