

*Depth to Silver Zone*

B-

December 6, 1913.

Mr. Archibald Gray,

General Freight Agent,

Building.

Dear Sir:

Please refer to my letter of July 31st, 1912, requesting you to issue a rate notice so that tools, materials and supplies as explained in the latter in accordance with contract with the Utah Construction Co. might be billed free over Western Pacific from Salt Lake to Proctor and Silver Zone. The contract covers free transportation over any part of the line and as there have been shipments of oil from Lyoth since September, 1913, I would ask that you issue a supplement so that material and supplies may be billed from any point to Wendover or Arnold's Loop during the continuance of work under contract for new so-called Arnold's Loop line.

Yours truly,

General Auditor
