

Help wanted

We have a number of fire extinguishers at the museum that need servicing. Anybody care to volunteer to help on this?

United Way

This is the time of the year when United Way asks for donations. Our Society is eligible to receive your United Way donation if you so designate. We have several people who now make donations to the United Way and designate all or part of them to the FRRS. Consider joining them. Our UW number is 42609.

Longtime FRRS member Grant S. Allen passed away on August 19, 1992. Mr. Allen began his railroad career in 1913 and held just about every position in the field. During his 50 years in the field he became well-known and was deemed a "boomer," which describes a person who has done nearly all the jobs on the railroad from a laborer to dispatcher to a timekeeper. He had written an unpublished book, "Reminiscence of a Railroad Boomer," which will be donated to CSRM at Sacramento. Mr. Allen always took pride in his job of chief train dispatcher at Hoover Dam, where he worked from 1931 to 1934. He retired as superintendent of transportation for Western Pacific in 1963.
