 From: Paul Finnegan, Webmaster
 Re: Tour.WPLives.org
 Date: August 9, 2023

In 2021, Kenneth Finnegan created a new web based tour system (located at <https://tour.wplives.org/>) for visitor use at the museum. He placed a large number of QR code signs on equipment around the museum. It has been used by many visitors to learn more about items. There is a tour page for 102 things around the museum. The pages can be accessed by scanning the QR code on the artifact with a mobile phone, entering the artifact's name/ID (e.g. WP707) in the navigation bar on the any of the tour pages (e.g. on the [WELCOME](#) page) and some are linked to the collection pages on the WPLives.org website.

In June, Kenneth and I were discussing the system and wondered how widely it is being used. Kenneth explained how he had configured the Apache web server logs for the tour system to me. I used this information to create two new UNIX shell scripts to create reports about how the Tour.WPLives.org system is being used.

There are currently 102 artifacts with tour pages, 74 of them were accessed in July.

The following is the report for July:

tour.WPLives.org report for July/2023 as of 08/01/23

Totals for all 74 pages:

Pages	WS_COUNT	NB_COUNT	QR_COUNT	OTHER_COUNT	TOTAL
74	75	64	238	7	377

WS - website, NB - navigation bar, QR - qr code

* - OTHER not included in grand total. (probably some kind of web crawler or bot)

Top 10 pages:
