Old Business

Event Changes / Delays Due to COVID-19

Review upcoming events and revise calendar, including crew training.

- Letter from Chris Skow and Norman Holmes asking us to open for Labor Day Weekend was presented and read to the Board.
- Steve Habeck noted that Eric McKay has brought up supplies over the two trips he has made and that is the majority of the cleaning supplies on hand. Notes that museum is not set up for any distancing. Cabooes too close inside. Building has no viable ventilation. Biggest problem is the public. We are getting people who do not take this seriously calling and emailing us and volunteers are concerned these people will cause issues.
- We have had people calling from the front gate. Interface with some of the public has been very poor and they have been combative with us. One damaged the gate and some have been rude and threatening on the answering machine.
- Guests noted that most of our regular volunteers fall into one or more of the high risk categories.
- Habeck further commented that, due to ongoing work, the museum is a mess and many projects are in the middle of process. Balloon track is blocked to clear RIP tracks. With museum being closed, we are taking the time to clear things up that have been sitting for a while as well as rearranging the yard for better access and security. Also catching up on trackwork.
- Ed Wagner spoke. Stated that he is a 27 year member. He opposes opening right now and feels that the risks outweigh the gains. We need to put the health and safety of public and members first. He noted that California State Railroad Museum and Pacific Locomotive Association are not running. Based on what he sees, he feels it would be irresponsible to open now.
- Comments of approval for Mr. Wagner's statement from guests and directors.
- Noted that regular volunteers currently working on museum projects have stated they will not volunteer if we reopen now. Likewise, RAL engineers will not take RALs.
- It appears that only Southern California Railroad Museum, formerly Orange Empire, is currently open in the state.
- Habeck asked how much money we stand to spend on rushed opening.
- David Elems comments that cleaning supplies are only lasting because we are having only a small group of volunteers who are basically quarantining together. We are still having supply issues and cannot get quantity of needed cleaning supplies. We do not have enough supplies for public.
- Kerry Cochran recommends that the Board gracefully acknowledge the letter and decline respectfully for reasons stated. Board acknowledges appreciation to Chris Skow and Norman Holmes for their request, despite declining.
- Based on current view, noted that there will be no Pumpkin or Santa Trains this year.
- Janet Steeper feels that we can come back fresher at the events in 2021.
- Ed Wagner noted that Fremont did not hold 38th annual Art and Wine Festival this year.
- Greg Elems noted that Nervino Airport has cancelled their Fly-In Breakfasts.

- Greg Elems made statement that 7-8 volunteers are quarantining together to get work done around the museum. He also commented that we need to formally remove all events from the 2020 calendar.
- Ed Wagner thanked the Board for his chance to speak and left the conference call.
- Eugene Vicknair will get sign made for gate stating we are closed through 2020.

Motion 20-08-02

Formal announcement that museum will be closed through 2020.

Cochran / Spikes. Aye – 7, Nay – 0, Abstain – 0. Motion carries.
