

FEATHER RIVER RAIL SOCIETY – AGENDA REPORT

DATE: June 7, 2014
FROM: Matthew Shuman
ITEM: New Business Item 3 - June Update
SUBJECT: **Events for Portola Railroad Days August 2014**

For Portola RR Days in August 2014, and the proposed speeder operations again for the public between trains is on schedule and on track. I have several party's already interested in operating during the event.

Confirmed Operators:

- Mike Mitchell (MOW board and was always at Dunsmuir) [FRRS membership in renewal]
- Sid & Jean Stoner (The sweet old couple from Oregon that were also always at Dunsmuir.) [FRRS member]
- Deb Harton (New to the speeder community, but a qualified, licensed operator.) [member in good standing]
- Backup operators Ron Huey & Matt Shuman "The Wooding's Brothers" [members always in good standing and standing good.]

NARCOA, the main Motorcar organization will be providing the necessary liability insurance to cover event operators. If FRRS would like a copy of the policy for their review, I would try to obtain such. The EC (Excursion Coordinator) Mike Mitchell and FRS President Rod McClure have worked out the technical details between the organizations as I currently understand it.

Both NARCOA and FRRS waiver forms will need to be signed by all public riders. These and operations details have yet to be worked out and crowd controls. I would like the assistance of a couple of other FRRS members in the planning and coordination of this 2 day public event.

REQUESTED ACTION: Consensus direction to proceed. [Consensus given at the 3/15/2014 Board meeting.]
