

FEATHER RIVER RAIL SOCIETY

Director Cochran Report

Date: August 2, 2019

HeritageRail Alliance

The Feather River Rail Society is a member of the HeritageRail Alliance (<https://heritagerail.org>).

We renewed our membership on July 31, 2019, so our membership is valid until 2020.

While working on the renewal, I was able to get access to the members' area of the HeritageRail Alliance website. As I looked at what is available to the members, I found that we can upload a profile and information of the museum.

I will need to go back and update information. There are several areas that I need to check prior to completing the update.

Another area of the website has a location where we can promote our museum. I plan on working with several people within the museum to find appropriate material to post about the FRRS/WPRM.

From what I can see, there are no museums in California that currently have information posted about their museum, so we would be the first.

Any questions should be directed to me at kcochran@wplives.org.

Kerry Cochran
