

FEATHER RIVER RAIL SOCIETY

DATE: May 2025
ITEM: Mechanical Report
FROM: Nick Manos

Mechanical session two is still set to begin on time. Intend to get Quincy 1100, lift-all forklift and tele-handler in service by close of session Friday the 23. Quincy 1100 is the priority. This assumes shop is still cleaned and I don't need to spend time getting ready to work again, as well as hoping Pakistan and India don't nuke each other and delay my flight home.
