

**FEATHER RIVER RAIL SOCIETY
AGENDA REPORT**

DATE: June 25, 2025
TO: Board of Directors
FROM: Kerry Cochran – General Superintendent
MEETING: July 12, 2025
ITEM: New Business
SUBJECT: Changes to FRRS Organization Chart

After discussions and consideration, I find it necessary to make changes to the FRRS organization chart.

In the past the Steam Department has been listed under the Board of Directors.

I have discussed this with the FRRS President and the CMO to better align all the mechanical functions in/under one role (leadership) so that all mechanical work and funding can be accounted for in one place.

I will be realigning the Steam Department under the Chief Mechanical Officer.

This move will better align all of the mechanical work into one department and can reflect overall accountability by one department head.

This change will also move all the associated costs under the CMO for better tracking and work scheduling.

ACTION: Review this meeting, and Approve.
